

Artwork measurements

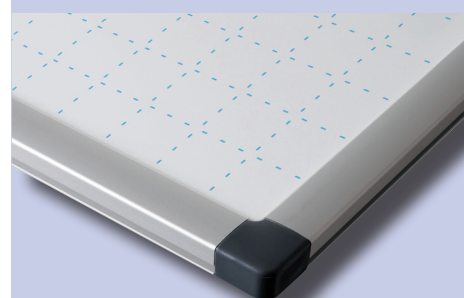

Design for PREMIUM whiteboard

We advise you to keep a minimum distance of ca. 12 mm from the edges within the artwork file size for the position of logo's and/or text.

Background colours can continue to the full file size as mentioned below to prevent white lines near the frame of the board.

BOARD SIZE mm	ARTWORK FILE SIZE mm
300 x 450	278 x 428
450 x 600	428 x 578
600 x 900	578 x 878
750 x 1000	728 x 978
900 x 1200	878 x 1178
900 x 1800	878 x 1778
1000 x 1500	978 x 1478
1000 x 2000	978 x 1978
1200 x 1500	1178 x 1478
1200 x 1800	1178 x 1778

Artwork requirements checklist

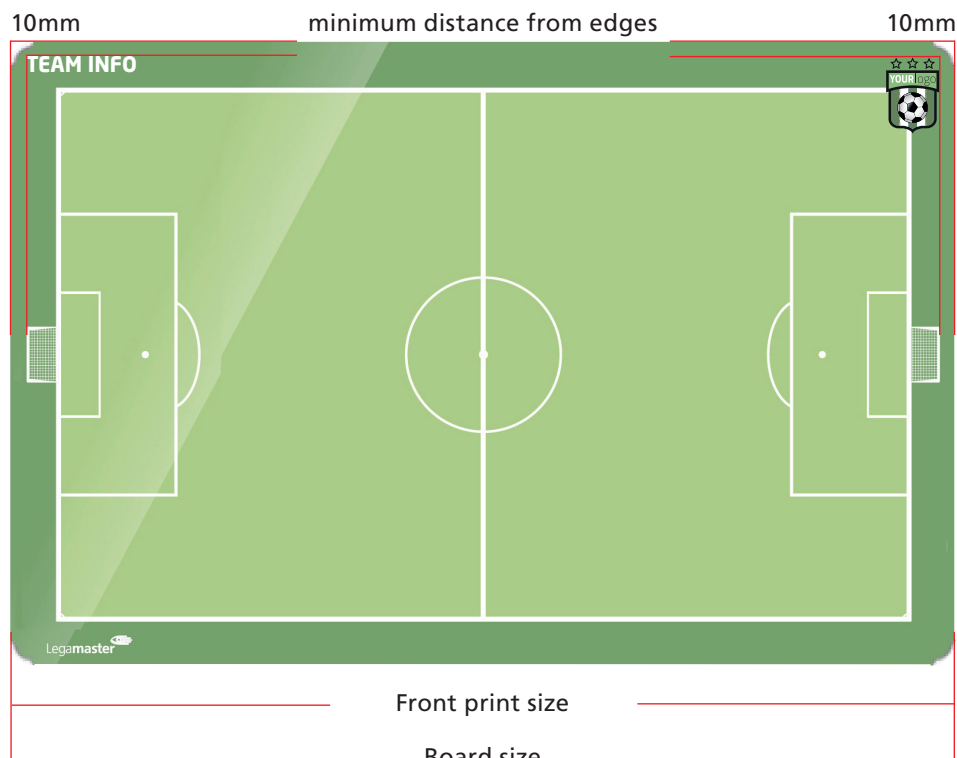

- ✓ The artwork document can be created in either Photoshop, Illustrator, Indesign, QuarkXpress, Word, Excel or other programs, but should always be saved as PDF.
- ✓ Create the document at 100%.
- ✓ All pictures/ files should have a minimum resolution of 300 dpi.
- ✓ Full colour artwork including photos should always be designed in CMYK. If a design holds company logos or other corporate identity elements; please state your (PMS) colour codes, if available.

Design ready?

Please contact or visit your Legamaster dealer for a price quotation or to order your custom printed whiteboard.

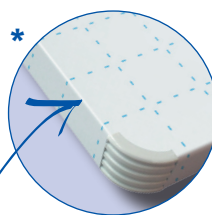

Artwork measurements

Design for ACCENTS whiteboard

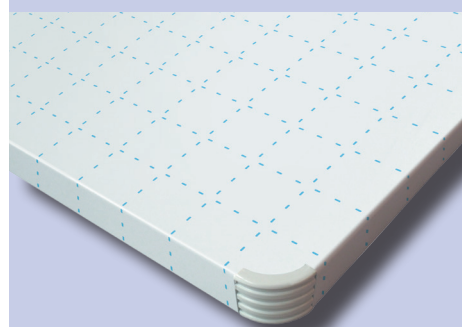

We advise you to keep a minimum distance of ca. 10 mm from the edges within the artwork file size for the position of logo's and/or text. Background colours can continue to the full file size as mentioned below to prevent white lines near the frame of the board.

With ACCENTS, you can choose an option that will allow you to print around the edges*. If you choose this option, you can format your artwork file based on the "Front to back print" size.

BOARD SIZE mm	"FRONT PRINT" ARTWORK FILE SIZE mm	"FRONT TO BACK PRINT" ARTWORK FILE SIZE mm
300 x 400	280 x 380	354 x 454
400 x 600	380 x 580	454 x 654
600 x 900	580 x 880	654 x 954
900 x 1200	880 x 1180	954 x 1254
