## SUPREME touch monitor

### SUP-7500 UK

- Legamaster SUPREME is a modular platform that can be extended by several high-end accessories, upgrade with additional functionalities or with enhanced sound and create a full-fledged videoconferencing and collaboration system
- User-friendliness has been at the heart of the development process. From easy to use soft keys printed on the glass, an easily accessible front facing USB port to a home screen that is intuitive and easy to navigate for all
- SUPREME can be programmed to give quick access to your jobs-to-be-done. Whether it is working in Legamaster Sessions on OPS, videoconferencing on an external system or casting personal devices to the big screen
- The touch experience is one of the best in the field, experience high speed, accuracy and a life-like writing experience because of the newest, high-end InGlass touch system developed by FlatFrog
- The bonded glass eliminates the gap between glass and panel for a superb and life-like writing experience. It increases the viewing angle and reduces reflections
- The glass on SUPREME touch monitors has been treated with both anti-glare and anti-fingerprint coatings. This further reduces reflection, offers higher visible brightness and makes it super easy to clean
- The PID-grade panels offer 500 cd/ms brightness, 5000:1 contrast and a 24/7 durability specification
